

Talmage is homeward bound.

A tug boat exploded at Chicago yesterday and killed four men.

The yellow fever continues its ravages in Memphis. Ten deaths yesterday.

Russia is causing much alarm among the European Powers by her suspicious actions. England thinks the Czar has designs on India.

Grant will be kept sight seeing and attending receptions in San Francisco this week. Eastern papers congratulate him upon the warmth of his welcome home. He receives the Methodist ministers to-day and sees Pinare Thursday night, and visits the stock board on Saturday.

Committees of Safety.

Nevada City, California, stands in need of a properly organized Vigilance Committee, says the Gold Hill News, something after the style of the famous "601" which proved so effectual and decidedly beneficial some years ago on the Comstock, and which still exists as a secret and salutary warning to evil doers. Reno, also, has a similar secret organization, her "tar-bucket brigade," ready at all times to mete out tar and feather justice, a good flogging, or a conclusive hanging to any scoundrel who needs it. In a moral sanitary point of view the effect is excellent, and rascally tramps, villainous desperadoes and bad characters generally do not like Reno any better than they do the Comstock. These committees are composed of the best citizens, business men, etc., like that of San Francisco, and not only assist the legally constituted authorities in carrying out the laws, but reach cases where the law cannot or does not. Moreover, the knowledge of their existence acts in many cases as a preventive of crime and lawlessness. The Nevada Transcript comes out squarely in advocacy of the idea.

A brother of Dennis Kearney, who lives with his mother in Brighton, says Dennis will go East in a few weeks. He may be there by October 1st. It is his intention to stop in New York and help the Workingmen to elect their ticket. He will then go to Massachusetts, but does not intend to make any speeches. His intention is to go to Europe and study the condition of labor. He also desires to visit Garibaldi.

The next session of the California Legislature can last 100 days. In a year following there will be another session, of sixty days but thereafter the sessions will be two years, of sixty days each. The Governor, however, has the power to convene special sessions. No bill can be introduced for ten days before the close of a session. This is a feature of the New Constitution which meet with very general approval.

A gentleman writes to the Washington Post to say that if he had \$5,000 he would wager it against \$50 that Grant will be the Republican nominee for President, and that Tilden will be elected no matter which party nominates him. A man who starts out by admitting that he has no money can afford to betray signs of recklessness of this character.

The Henry tunnel, White Pine, is now 500 feet under ground, also, that they have gone through a dark, shaly limestone formation, and at every blast they are in new ground. He also says that they have reached Treasure Hill proper, and that the prospects of mining in and around White Pine are brightening daily. They have been making 50 feet per week.

The Gold Hill News says the heat in the Savage is so great that the miners' hands and faces blister. The coolest place is 140 degrees, and not very cool at that. Everybody is friendly there; no cold shoulder to turn, no cool receptions. Nothing like it was ever known on the Comstock. It is in fact a welding heat.

Since the Republican party has been organized in the State of New York, the Democrats have had the Governor 11 years and the Republicans 12 years. This would go to show that New York was one of the doubtful States.

Wm. H. Vanderbilt, the railroad magnate, has written a letter favoring legislation by Congress fixing the rates of inter-State railway traffic.

Some of the Black Hill quartz mills clean up as high as \$30,000 to \$60,000 at a time.

There is some talk that the Union Pacific will soon build a branch road to the Black Hills.

the number of workmen's homes in this country has, however, necessarily suffered a check during the hard times, that have laid their heavy hand alike on both labor and capital in the United States, as elsewhere. Where capital has in many instances been compelled to lose its interest, and with difficulty preserve its principle intact, labor cannot expect to accomplish more than "to make both ends meet." But this deplorable condition of things has been outlived, and there is a general feeling that better times have begun. Resumption of specie payment has been resumed, six years after the death of the man who declared that "The way to resume is to resume," and we are at last entering upon an era of prosperity. Under these circumstances labor should do more than "make both ends meet."

American citizenship should include a permanent home, however humble. Real estate has touched bottom prices, and building material is as cheap now as it is likely to be. The present is then the time for the laboring man, even though of moderate means, to invest in a building lot in the place where his residence is, and is likely to continue. The wages received by labor in the West compare well with the prices paid in other localities, and compared with the prices of provisions, and other articles of living, wages are very favorable to the laborer. There is no reason why a laborer should not save enough to buy a home. This, of course, takes temperance and economy for granted. It is one of the best things that can happen to a town or city where it holds many homes owned by the laboring classes. The Pacific Coast already has many such, but the present opportunity for the building of a great many more ought not to pass unnoticed. There is land enough for all, and holders of real estate should show a disposition to make the most advantageous terms to laboring men who would have a home of their own. The "lords of the soil" in America are who-soever will.

UNJUST.

We are informed that Indian Agent Garvey has resigned and that a Mr. Spencer from Rochester, New York, has been appointed in his place. It seems that the American Baptist Home Mission Society, of New York, has the filling of this place and from all we can learn somebody about the home office of this Society has been guilty of a very small species of political jobbery. The Baptists of this State are justly indignant at the way in which they have been treated in this matter. There are plenty of men in this State who belong to that denomination who could fill the position of Indian Agent with ability and we do not blame our Baptist friends for feeling indignant at the slight that has been put upon them. The Mission Society need not be surprised to find the leading men of that denomination petitioning Congress to take the contract of the Nevada Indians from them and have it placed in the charge of some denomination that has sense enough to employ men who are on the ground and know something about Indian affairs. It looks a little crooked to an outsider to see a man from New York sent out here to be Indian Agent. Let us have a reform in this matter.

It seems that the remains of the young Prince Louis Napoleon are not to find a final resting place in Westminster Abbey, after all, the English people protesting against the proposition. Dean Stanley suggested that this distinction be conferred upon the prince, under the impression, as he now asserts, that it would be satisfactory to the nation. Now, however, having learned that the people are opposed to it, he withdraws his consent, and the young prince's bones will be placed at rest by the side of those of his father at Chiselhurst. Very few foreigners have been buried in Westminster Abbey.

Hereafter the State elections in California will be held on the first Tuesday after the first Monday in November. This conforms to the same day of elections held in the States of Colorado, Connecticut, Delaware, Florida, Illinois, Kansas, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Texas, Virginia and Wisconsin.

counsel. The practice of the Home has been to allow each veteran one dollar a month for personal use, and to retain the balance of his pension, no matter what the sum might be. The plaintiffs claim that by so doing nearly half a million dollars has been acquired. The Home is supported by an assessment, which is not compulsory, of 12 1/2 cents a month upon the soldier of the regular army. Payment of the assessment entitles the soldier to the privileges of the Home after his discharge from service. The income from this and other sources has greatly exceeded the expenses. Notwithstanding the soldier is informed when he enters the Home that he will receive no pension money. A veteran named Bowen some time ago recovered against it by a suit at law. There is a strong suspicion that the officers of the Home have been receiving much larger incomes than they were entitled to.

The irrepressible lady gay, Mrs. Myra Clark Gaines, has been around Washington enough to know that Congressmen are not always models of virtue, marital fidelity and domestic honor, hence she has invented a scheme for reforming them morally. Myra proposes to equip in the capital a hotel where the accommodation and prices will be such as to encourage Congressmen to take their wives and children with them, the energetic little lady believing that if the national legislators have their own better halves to watch them they will be more circumspect in their conduct. The idea is a good one, and if any one can put it into operation, Mrs. Gaines is that person. However, as she has seen seventy-two Summers, and in the natural course of events must be gathered to her fathers within the next half century or so, it is feared her efforts in the direction of purifying congressional morals, and instilling virtue into the minds of lawmakers, will not make themselves appreciably felt in the capital before she passes from this world of sin and wickedness.

THE TENDENCY.—Notwithstanding what is being said to the contrary, the Mormon question is being gradually settled. The stringent laws against the plurality-wife system by the United States, and the settlement of Utah by an opposing population, are fast crowding the Mormons out of their ascendancy. The following paragraph from the Salt Lake Tribune, has significance as to the result:

While the mining towns of Utah, which are exclusively Gentile, are rapidly increasing in wealth and population, the Mormon villages are decreasing and drying up. St. George, formerly known as Brigham's Southern capital, is dead, and where formerly three stores were comparatively well supported there is not enough doing to support one.

Laura D. Fair has written a lecture entitled "Chips from California," the initial delivery of which will be at Chickering Hall New York to-night. The lecture is understood to contain much that is dramatic of the unmasked and practical side of life as seen in the Golden State. It is said to also treat of public men, politics, notable women, of the requisites to the inner circles of the California elite, at the operators on "the street," of Henry Ward Beecher's visit to California, and something about the Chinese, the Bonanza Kings, and the domestic virtues of California hospitality.

Refuse to Pay.

There was \$14,000 worth of goods stored in the Mound House freight depot when it burned, and the owners want the Railroad Company to pay for it. This they refuse to do, claiming that their responsibility ceased upon landing the goods at their destination. Suits will be commenced by the aggrieved parties.

The Influence of Climate. The influence of climate upon a constitution subjected to a trying change in atmospheric conditions, in water, and in food, is often marked and disastrous. Disorders of the bowels and of the liver, frequently terminating fatally, are prone to attack the tourist by land or voyager by sea in unaccustomed latitudes—more particularly those near the equator. The best medicinal protection against irregularities of the bowels, stomach and liver, not only from the above, but whatever cause arising, is Hostetter's Stomach Bitters, a medicine in wide and increasing demand in sultry portions of this hemisphere, and also in the tropics. Travelers, emigrants, dwellers and temporary sojourners in malarious districts, take it very judiciously as a safeguard.

Serious Accident

Last Saturday Mrs. P. J. Kelley met with a serious accident, whereby two ribs were broken on her right side. She had climbed up on a four-board fence to see if there was any egg in a nest in the hay stack. She was standing on the next to the top board, and when she leaned over to look into the nest the board broke. She fell across the top board, with a result as above stated. Dr. Dawson was called. She has been in great pain ever since the accident and has been unable to sleep at all.

The Day of Atonement.

On next Friday occurs Yom Kippur, or the Day of Atonement, which is universally observed by the Hebrews. On the evening of this day confessions of sins are made, and the Divine mercy is implored by the heads of households. All business, of whatever nature, is suspended, and the people flock to the synagogues, where the services are even more impressive than those with which Tish Yur is commemorated.

Viewing the Land.

The State officers were down yesterday for the purpose of viewing the grounds set apart for the Insane Asylum. A water right has been purchased at a cost of \$2,200, leaving \$2,800 left out of the appropriation made last Winter, with which to enclose the land and plant trees preparatory to building at some future day. The State officers have instructed Surveyor General Hatch to survey the land. About 20 acres of it will be enclosed and planted with trees.

Don't Go.

Internal Revenue stamps are not good to pay postage with. Some one tried it yesterday and slapped a 4-cent Internal Revenue stamp on a letter. As a consequence Frank L. Lane, Summerville, will not get a letter as soon as he might have. A letter to Miss Mary P. Charch, Sierra Valley, has no stamp, and so it is held.

A man who has just arrived from Rattlesnake valley for Sheriff Hill, says the Sentinel, that Annie, the prisoner who escaped from Sheriff Kyle about two months ago, was in that region, he having seen a red-robinized him. As there is a standing reward for his capture, Sheriff Hill will doubtless look after him.

Enthusiasm—Gen. Grant will remain on Coast Some Time.

That was a grand reception General Grant received last Saturday night in San Francisco. Never has a man been so honored before. Gen. Winfield Scott was tendered a reception a quarter of a century ago, but it was an insignificant affair to the one accorded to the hero of Vicksburg. San Francisco seemed frantic in her endeavors to do the guest homage. The city papers contain in detail the particulars of the reception, and after a perusal of them one can form a faint idea of the magnitude, magnificent and spontaneous character of the welcome. From the moment that the thrilling cry, "Grant is coming! The Tokio is in sight!" was sounded until midnight one continuous cheer, accompanied by hundreds of brass bands, volley after volley from forts, brilliant illuminations, fireworks and all kinds of evidences of welcome were kept up by the hundreds of thousands of people. San Francisco was as brilliant as if it had been day time. Every point the procession passed was crowded with people anxious to see the calm, emotionless man upon whom this honor was conferred. He made one brief speech in reply to repeated calls, thanking the city for the warmth of the welcome and retired to the magnificent apartments especially fitted up for him in the Palace Hotel. He expressed a desire to rest in quietness over Sunday. One feature should not be overlooked, and that was the salute fired from the sand lots by the Federal and Confederate veterans—a befitting tribute to Kearney, who threatened to hang him in effigy from that very spot. In its interview with Gen. Grant, the Chronicle asked him if he could be induced to accept a third term. A vacant look far out at sea was the only reply. Be this as it may one thing is sure, the reception is non-partisan, every party delighting to do honor to Gen. Grant. He will remain on the coast some time, visiting various points of interest, and then go East to his home in Galena, Illinois where a family reunion is to take place in October. Nellie Sartoris coming from England for the purpose. All of the boys are in San Francisco with their parents.

Gen. Grant yesterday reviewed the Stockton Guard, had his picture taken, visited the Cliff House and last evening attended the California Theater to see "The Color Guard." He has accepted an invitation to visit Virginia City about October 20th, on his way East. He will time his visit to Oregon so that it will take place during the State Fair, in the first week of October. By this it will be seen that the General will likely miss the Nevada Fair, arriving a week too late. Strenuous efforts will be made to bring him here to our Fair.

Notified to Leave.

Latest from Bodie is that Geo. Daly and five men employed by him, have been ordered to leave town within 24 hours, under penalty of consequences. He had returned and taken possession of the Jupiter mine, and had not been on the ground over a day before the notice was given, it is said, by the Miners' Union. Of course the order was obeyed. The Miners' Union on Saturday night held a meeting and passed a resolution allowing George Daly, Joe McDonald, Barney McDonald, George Barber, Joseph Burnell, James Murphy, and William Andrews twelve hours in which to leave Bodie Mining District. These men entrenched themselves in the Jupiter works.

A meeting of citizens was called, and a committee of seven appointed to wait upon both parties and endeavor to effect an amicable settlement.

The meeting of the Miners' Union, with some 500 members present, voted unanimously not to rescind the resolution ordering Daly and his men out of town.

The citizens' committee and the Miners' Union committee, aided by George Daly's friends, had articles of agreement drawn up by which George Daly and men, who have been holding the Jupiter works with guns and pistols, are allowed forty-eight hours, dating from Sunday evening, to leave Bodie Mining District. All the guns and ammunition held by these men were turned over to the Sheriff and they are settling up their business preparatory to leaving this afternoon. The town is now quiet although on Sunday a bloody riot could have been precipitated at any moment.

GUILTY.

Henry and Anderson, who, it will be remembered, were arrested here upon a suspicion of John F. Myers, have been tried by the Storey county District Court and found guilty of stealing \$500 worth of clothing and jewelry from the White House, Virginia. They will be sentenced Thursday.

Grand Prize has levied an assessment of fifty cents per share.

Boys continue to swim in the river. It must be very cold. The foundation of the new school house has been completed. Tramps "inhabit" the brake beams of about every train going west. Only 30 men are now employed in the Wadsworth machine shop.

Will Grant attend our Fair? The question is an interesting one to this State.

The Government inspectors went west yesterday afternoon in a special train.

John Piper, of Virginia City, will open the new theater on the 29th with a juvenile Pinafore troupe.

Gov. Kinkead, Controller Hallock, State Treasurer Crockett and Surveyor General Hatch were in town yesterday.

Stages will commence running over the new mail route, from Reno, Nev., to Crescent, Plumas county, on the 1st of October.

Thirty locomotives are in constant use on the Truckee Division of the C. P., which extends from Truckee to Winnemucca.

Geo. A. Campbell, an emigrant, died at Wadsworth, Saturday. He leaves a wife and two children, who continued their lonely journey.

The Swiss and Italians have been busy celebrating the anniversary of Switzerland's independence. Oceans of beer were destroyed.

Dunham, the noted photographer, has arrived and is fitting up the building recently occupied by E. Rice, corner Commercial Row and Sierra street.

P. J. Kelly warns all persons not to trust any, save members of his family, without an order, as he will not be responsible for any bills thus contracted.

The machine shop at Wadsworth had a narrow escape from fire last Saturday. A spark from a locomotive set the roof on fire, but prompt action stopped a conflagration.

That Reno hunting party has returned and deny having used giant powder to kill fish with. They did not get many as the trout did not bite readily.

Our schools are beginning to attract immigration to Reno. A Mr. Pelez, of Battle Mountain, has moved here because of the scholastic advantages afforded his family.

The social reunion at the M. E. Church to-morrow evening will be very pleasant. A fine programme has been prepared. An admission fee of 25 cents will be charged at the door.

The theater will be ready by Fair time. Good progress is being made on the scenery, and the carpenters are now finishing up. Fifty dozen chairs will be put in to start with.

Miss May Tallman will teach a juvenile music class in the public school building on Tuesdays and Fridays of each week. Terms, two bits a week. The rudiments of music will be taught.

District Court.

Yesterday's proceedings, before His Honor Judge Sewell:

In the matter of the Reno Water Co. vs. L. W. Lee, and Reno Water Co. vs. B. F. Leete—On motion of defendant's attorney the order setting these cases was vacated.

G. B. Hill vs. Barnett & Brother—the order setting the case was vacated and the case continued for setting at some future day, plaintiff to pay cost of continuance, viz: two witnesses.

A. H. Manning et al. vs. Mary Wall—On motion of defendant's attorneys a stay of proceedings was granted until Oct. 6.

Fine Home.

Mark Parish, our County Clerk, is building himself a nice home across the river and expects to have it ready for occupancy in about a month. The house is a two-story frame, well braced and plastered throughout; will contain four rooms, besides hall, bathroom and closets on the first floor and five rooms and three closets upstairs. Gaspipe has been put in all the rooms. A fine cellar has been dug. The yard has been leveled up and surrounded by a stone wall. A fine view is afforded from every window. J. S. Sellers is the contractor.

Harry Bernard, the stirring wagon-maker of Sacramento, is making arrangements for showing his buggies at the State Fair. He reports the people of Sacramento as anxious to make exhibitions at the Fair, and he is selecting space for himself and others in the pavilion.

SUMMONS.

IN THE DISTRICT COURT OF THE SECOND Judicial District of the State of Nevada, in and for the county of Washoe.

The State of Nevada sends to HARRY KOLIN, Greffier: You are hereby required to appear in an action commenced against you as defendant by Battle E. Nolia as plaintiff in the District Court of the second Judicial District, in and for the county of Washoe State of Nevada, and answer the complaint therein within ten days after the service on you of this Summons (exclusive of the day of service), if served in said county, or twenty days if served out of said county, by which said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover a decree of this Court dissolving the bonds of matrimony now existing between you and plaintiff; that she has the custody of the two infant children the issue of said marriage upon the grounds set forth in the complaint on file to wit: That since your marriage you have continually cruelly treated her and that since your marriage you have contracted habitual drunkenness, which you have failed to provide your part of the support of the family, all of which will more fully appear from the complaint which is now on file in the office of the Clerk of said Court at Reno, in said county.

And you are further notified, that if you fail to appear and answer said complaint the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I, Mark Parish, have hereunto set my hand and affixed the seal of said Court this third day of September, 1879.

MARK PARISH,
Clerk of the District Court of the second Judicial District, Nevada, in and for Washoe County.
